Professional Summary of Qualifications

I am a self-taught frontend web developer using ReactJS. *I am building projects with HTML, CSS, Javascript, React, Bootstrap and Sanity.io.* I have built a frontend project with Sanity IO content management system for writing and reading data to a user interface on the web. In my work as a middle school math teacher, I have experience communicating and working efficiently in a team of professionals. I am skilled in problem solving, utilizing online communities and reading documentation to find the most up to date coding solutions.

I am seeking to join a team of seasoned engineers. I can contribute my frontend programming, excellent communication and problem solving skills as an intern or junior frontend developer. I seek to build long lasting professional relationships.
